

IN THE CLAIMS:

Please amend claims 58, 60 and 63 as follows:

B2
58. (Amended) A method of screening for a mammal having prostate cancer, said method comprising screening for modification to inhibin protein levels in said mammal wherein modification of said inhibin protein levels relative to the inhibin protein levels in a normal mammal is indicative of said mammal having developed prostate cancer.

B3
60. (Amended) The method according to claim 58 wherein said inhibin is α -inhibin.

B4
63. (Amended) The method according to claim 58 or 60 or 61 or 62 wherein said modification is absent .
